

NEVADA NURSERY STOCK DEALER LICENSE APPLICATION INFORMATION

Nevada nursery laws required any person who engages in the commercial production, holding, distribution, collection or selling of nursery stock to obtain a nursery stock dealer license. Licenses are issued according to the state fiscal year and **expire on July 1st of each year**. All renewals not paid in full by the expiration date are subject to a mandatory **\$75.00 late fee**. A separate license and fee are required for each business location.

License Type and Fees

License type. Use the information below to determine your business type and the required fee:

- **Registered place of business.** Includes retail nurseries and stores, grocers, drug stores, wholesale and retail growers, greenhouse operations, landscape contractors, landscape maintenance companies, etc. A license is required for each business location.
- **Peddler.** Solicit, sell, or offer for sale nursery stock directly to the *public* and do not have a business located in Nevada. Wholesale growers with valid nursery licenses issued by another state department of agriculture who sell *only* to businesses holding valid Nevada nursery stock dealer licenses are exempt and do not have to obtain a Nevada nursery stock dealer license.
- **Broker.** Act for others in negotiating for the purchase or sale of nursery stock and do not handle either the nursery stock or the proceeds of the sale.
- **State or local government entity** such as conservation district, forestry division, school programs, etc.

License Fees. Nevada nursery stock dealer licenses are annual licenses and are issued for the Nevada fiscal year. Licenses expire on June 30th. Renewal notices are mailed to each licensee in May.
